PROFESSIONAL SUMMARY

Operations and Data Analytics professional with solid experience in operational efficiency, process automation, data governance, and business analytics within large-scale financial and regulated environments.

Experienced in bridging data, operations, and business strategy to optimize workflows, reduce operational bottlenecks, improve data reliability, and support evidence-based decision-making.

Strong background in process improvement, KPI monitoring, operational analytics, and automation using SQL, Python, Power BI, VBA, and ETL solutions. Proven ability to support business transformation initiatives, operational governance, and continuous improvement programs.

Analytical and business-oriented professional with experience collaborating across technical, operational, and strategic teams to drive efficiency, process maturity, and sustainable business value.

PROFESSIONAL EXPERIENCE

Fundação Itaú Unibanco — Data & Operational Efficiency Analyst

Insurance, Governance & Benefits Division

May 2021 – Feb 2026

- Led operational efficiency and process automation initiatives within financial and regulated environments
- Optimized critical operational workflows related to benefits, credit operations, and financial services
- Developed automation routines and ETL/data processing pipelines using SQL, Python, Spark, and VBA
- Performed data validation, governance, and quality control to ensure compliance, traceability, and business rule adherence

- Built and monitored operational and analytical KPIs to support business performance and decision-making
- Conducted root cause analysis, functional validation, and investigation of operational inconsistencies
- Supported continuous improvement initiatives and operational process evolution
- Collaborated with technical, operational, and business stakeholders in a large corporate structure

Key Achievements

- Reduced processing time for critical operations by up to 60%
- Improved operational efficiency and SLA compliance
- Reduced operational inconsistencies and risks
- Increased data reliability and traceability across processes

Supplier — Operations Supervisor | BackOffice

Mar 2013 – Aug 2019

- Managed operational routines focused on efficiency, process standardization, and SLA monitoring
- Developed KPIs and management reports to support strategic decision-making
- Automated operational reports and processes using VBA and SQL
- Mapped and optimized operational workflows to reduce rework and improve productivity
- Managed contracts, vendors, and cross-functional operational activities
- Performed operational and financial data analysis to support business decisions
- Supported continuous improvement initiatives and operational quality control

Key Achievements

- Increased operational efficiency across back-office operations
- Reduced failures and operational rework
- Improved process standardization and data quality

Itaú Unibanco — Insurance & Investment Consultant | Relationship Manager

Dec 2007 – Feb 2012

- Provided advisory services in insurance, pension, and investment products
- Managed portfolios for individual, corporate, and high-net-worth clients
- Developed strategic client relationships and business support activities
- Supported the Personnalité premium banking network
- Acquired strong knowledge of financial products, insurance operations, and regulatory processes

EDUCATION

MBA in Data Engineering & Data Architecture with Artificial Intelligence (*In Progress*)

Bachelor's Degree in Systems Analysis and Development

CERTIFICATIONS

- Lean Six Sigma White Belt
- Microsoft 365 Copilot

CORE SKILLS

Operations, Process & Governance
